

Seeing is believing

ARE YOU READY FOR INTELLIGENT VIDEO AND AI SERVICES
THAT TAKE YOU ONE STEP CLOSER TO FLAWLESS LOGISTICS?

Join us on our journey. [Starting here.](#)

We're dedicated to revolutionizing the world of logistics, one innovation at a time

Our purpose is to change the world of logistics through cutting-edge technology. Did you know:

- Monthly, goods worth billions of euros are lost in storage, transport and delivery
- Globally, the economic and environmental cost is staggering

SiB Solutions uses video, smart analysis, AI, IIoT, edge computing, and other emerging technologies to create "logistical superpowers" that eliminate errors, and stop loss.

OUR PROMISE

We help the world move one step closer to flawless logistics every day

SiB Solutions offers straightforward, intelligent video and AI services:

- Place the power of seeing directly into the hands of users
- Provide deep insights that help eliminate loss at every step of the supply chain
- Cut costs, improve margins, boost quality and strengthen your reputation
- Are flexible and subscription-based

High achievers like PostNord TPL, Scania, Nowaste Logistics, Hillebrand, Bileko Car Parts, GDL, Atea, and Dahl, part of SGDS-gruppen subscribe.

A monthly subscription is all it takes to transform flawless logistics from wishful thinking into everyday reality.

“With intelligent video analysis, we know exactly what has happened and can take the right action with the customer, and we know what we need to do in the warehouse to prevent it from happening again. Our hope is to get an even more satisfied client – we will continue our successful work towards zero mistakes.”

“We realized quite quickly that this tool helps both our customers and us to continuously improve. Immediately after the training, the quality assurance department found its first answers. Questions that have been difficult and time-consuming to investigate before now take just a few seconds to resolve.”
